Ausnahme: Kinder- und Jugendmedizin & Geburtshilfe

Due to the current situation (Corona virus Sars-CoV-2) and the associated infection protection, hospitalization is prohibited until further notice. There are exceptions to pediatric and adolescent medicine and obstetrics. The visit here is limited to one person per day. Other people should not be in the clinic or on the clinic grounds. Objects urgently needed by patients (e.g. clothing) can be handed over to the information desk in the main house.

When entering and leaving the hospital, we ask you to thoroughly disinfect your hands.

For general infection protection, the Bistro Villa Leisse will only be accessible to employees until further notice. For this reason, the coffee bar is temporarily closed. Please use the machines (drinks & food) opposite the information desk in the main house. We ask for your understanding.
